

ARABIA

FOR SERVICES DEVELOPMENT

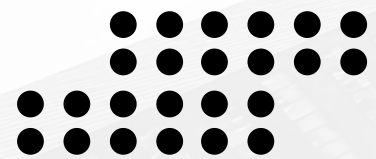

PROFILE

Since 1985, Arabia for Services Development in the Egyptian market has always strived to provide the best quality and efficiency in various fields in the industrial sector in Egypt. Therefore, allow us to take you with us on a short journey into our world.

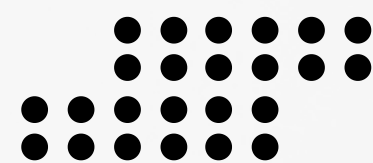

INTRODUCTION

Arabia for Services Development is considered one of the leading specialized companies in the field of importing the most advanced technology of industrial equipment, auxiliary for production lines, fuel equipment, cleaning equipment, welding equipment, car service equipment, lubrication and greasing equipment, and air compressors.

ABOUT US

Arabia for Services Development is distinguished by offering the highest technical specifications at competitive prices, and ensures the authenticity of all its equipment by relying on a team of well-trained engineers and technicians abroad. We also provide full maintenance and equipment preparation services, along with genuine spare parts through our own specialized service centers.

Our sourcing policy is based on importing equipment from major European manufacturers that Arabia for Services Development officially represents in Egypt. This guarantees customers trusted after-sales services, professional technical consultations, and tailored equipment recommendations that meet their exact business needs. We also focus on training client staff to ensure the proper use and efficiency of all equipment.

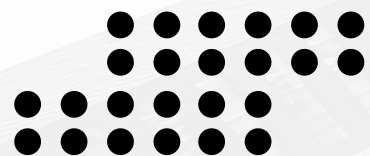

OUR HISTORY

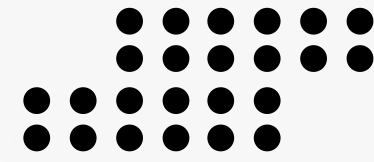

Arabia for Services Development has been serving the Egyptian market since 1985. The company first started its journey by introducing Italian welding machines from **FIMER** and industrial cleaning and sanitizing machines from **LAVOR**, where we have proudly remained the exclusive agent in Egypt for more than 40 years.

Over the past 20 years, we have also expanded into the field of fuel management solutions with the renowned Italian brand **PIUSI**, offering advanced equipment, engineering consultancy, and the construction of complete fueling stations for companies, factories, and farms. Alongside, we continue to provide a wide range of industrial equipment.

Through our long-standing partnerships with major corporations and institutions, we have built a strong customer base in the Egyptian market – a foundation that has given us trust, credibility, and the drive to continuously deliver more efficient and reliable solutions.

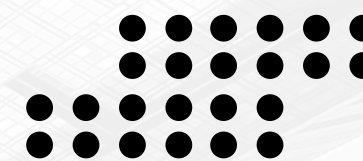

VISION & MISSION

To be the leading provider of innovative industrial and fueling solutions in Egypt, recognized for our reliability, efficiency, and long-term partnerships that empower businesses to grow with confidence.

Our mission is to deliver world-class European equipment and integrated solutions that ensure accuracy, safety, and cost-efficiency. We are committed to supporting our clients with expert engineering consultancy, turnkey project execution, and continuous after-sales service, helping industries achieve sustainable growth and operational excellence.

OUR FACILITIES

Arabia for Services Development operates through fully equipped facilities including showroom, service and maintenance center, warehouses, and training spaces. These facilities ensure product availability, fast delivery, professional after-sales service, and continuous technical support – enabling us to serve our clients efficiently across Egypt.

Head Office:

10 Naguib Al Rehani St., 1st Floor - Al Azbakeya, Cairo

Showroom:

145 Al Khalig Al Masry St. – Hadaeq El Qobba, Cairo

Service Center:

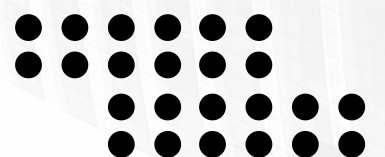

25 Ahmed Zaki Street – Hadaeq El Qobba, Cairo

OUR PRODUCTS

Arabia for Services Development offers a comprehensive portfolio of premium European industrial products, representing some of the world's leading brands. We are the exclusive agent of **PIUSI** for fuel management systems, **LAVOR** for professional cleaning machines, and **FIMER** for welding equipment in Egypt. In addition, we proudly supply high-quality solutions from **Self-Climat**, **Faicom**, **Shamal**, **Hazet**, **Fini**, **Comaria**, **Stayer**, **Hawk**, and **Italgarage**.

Every product we deliver is selected to ensure efficiency, durability, and long-term value, enabling our clients across agriculture, logistics, construction, and manufacturing to achieve operational excellence.

BRANDS

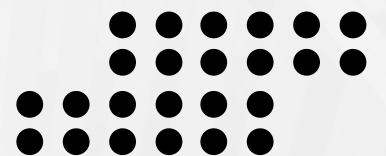

PIUSI

SINCE 2005

PIUSI is a leading Italian manufacturer of fuel transfer, dispensing, and management solutions, established in 1953. Headquartered in Suzzara, Italy, PIUSI is globally recognized for its high-quality pumps, meters, and advanced fuel management systems used in agriculture, construction, transport, and industrial sectors.

With decades of innovation and engineering excellence, PIUSI combines durability, precision, and reliability, making it one of the most trusted names worldwide in the field of fuel handling and fluid management.

Over the past 20 years, we have also expanded into the field of fuel management solutions with the renowned Italian brand PIUSI, offering advanced equipment, engineering consultancy, and the construction of complete fueling stations for companies, factories, and farms. Alongside, we continue to provide a wide range of industrial equipment.

Softwares

Specialized software for monitoring all fuel dispensing and receiving operations, integrated with fueling dispensers through multiple possible methods, and used to generate periodic reports to ensure strict control and effective management of fuel consumption from any where.

Dispensers

Diesel/Gasoline Fueling Dispensers (Mechanical - Digital - Wall-Mounted - Stand) Different capacities and sizes

Pumps

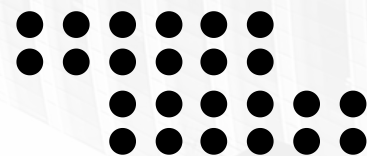

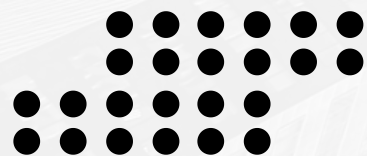

Diesel transfer pumps -
Diaphragm pumps (water/chemical/diesel/oil) -
Oil pumps (manual/electric/pneumatic/rotary)

Meters

Flow meters of various sizes, including mechanical and digital, for all types of liquids

Nozzles

Diesel, gasoline and oil Nozzles with and without meter (mechanical - digital - automatic - manual)

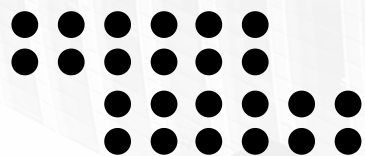

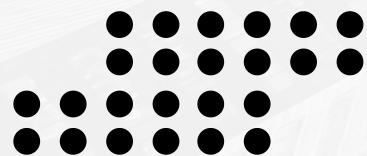

Filters

Different filters for separating water, separating impurities and suspended particles, transparent filters, different flowrates.

Hose Reels

High-quality hose reels designed for fuel, oil, grease, and air applications, available in 1/4", 1/2", 3/4", and 1" sizes with hose lengths from 10 m up to 20m

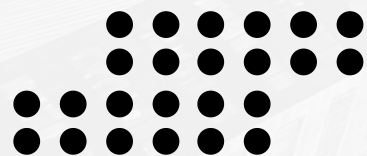

ELECTRIC OIL DRAINER

Oil suction and filtration units (electric/air-powered) with and without tanks.

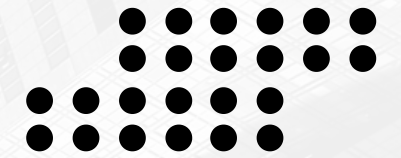

Grease pump & Piston pump

Air-operated grease pumps and lubricants with different capacities 20:30 kg - 50:60 kg - 180:200 kg

BRANDS

FAICOM[®]
— — ITALY

FAICOM (Torino Renato Costruzioni Meccaniche) is an Italian manufacturer specialized in professional equipment for fluid and energy distribution. Based in Italy, the company designs and produces a wide range of products including hose and cable reels, lubrication equipment, and suction/drain units for oil, water, diesel, AdBlue, grease, and compressed air.

With strong focus on Made in Italy quality, durability, and innovation, FAICOM products are widely used in automotive workshops, industrial plants, agriculture, and service centers worldwide.

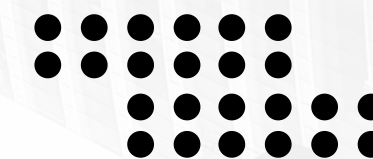

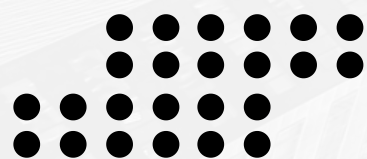

Pumps & Kits

Hand-operated grease and oil pumps 16 kg, and air-operated grease and oil pumps ranging from 12 kg up to 200 kg.

Waste Oil Equipment

A complete range of Waste Oil Equipment available with tank capacities from 65 to 90 liters.

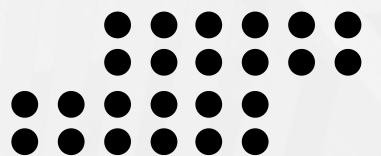

BRANDS

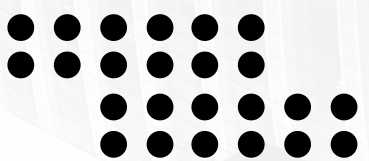

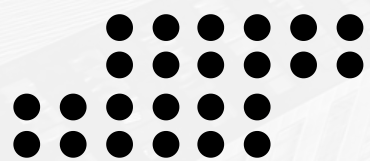

Self Climat (founded in 1969) is a French company specialized in safety and environmental protection equipment for fuel and liquid storage. The company designs and manufactures high-precision overflow prevention devices, leak detectors, level monitoring systems, and tank accessories that comply with international safety standards.

With decades of expertise and European engineering quality, Self Climat products are trusted across the oil, fuel, and industrial sectors to ensure safe storage, prevent environmental pollution, and provide reliable solutions for handling flammable and hazardous liquids.

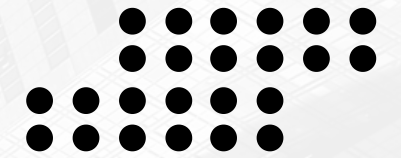

Fuel Tank Accessories and Devices

overflow prevention devices, Tank leak detectors, Level control and Tank equipment

BRANDS

Adam Pumps

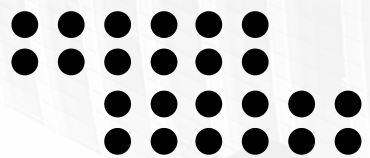

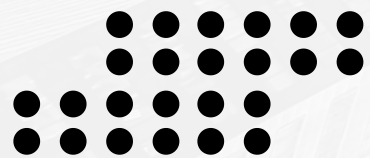

Adam Pumps is an Italian company specializing in high-quality fuel transfer pumps, flow meters, and dispensing solutions for diesel, AdBlue, and lubricants. All products are designed and assembled in Italy with a strong focus on durability and precision.

The company is known for reliable, easy-to-use equipment that serves industrial, agricultural, automotive, and commercial applications. Its range includes electric pumps, mechanical and digital meters, and complete dispensing kits built for efficient and safe fluid handling.

Fuel Dispensers, Flowmeters and Pumps

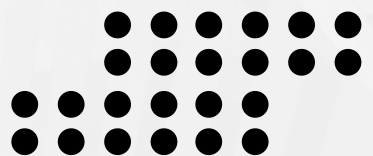

BRANDS

GESPASA

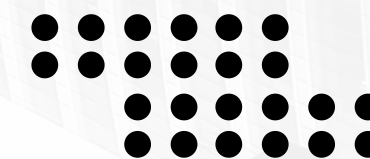

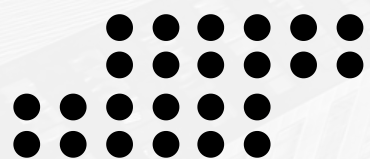

GESPASA designs and manufactures equipment for the transfer, filtration, measurement, and control of fluids such as fuel, lubricants, and AdBlue/DEF. Since 1974, the company has been providing solutions that meet diverse fluid handling needs.

With most production processes integrated within a single facility, GESPASA maintains strong quality control and a complete vision of its products. By combining talent, expertise, and manufacturing processes, the company delivers reliable solutions for fluid and data management across various industries.

BRANDS

LAVOR
SIMPLY STRONGER

SINCE 2003

LAVOR is an Italian brand founded in 1975, specialized in the design and manufacturing of professional cleaning equipment. Headquartered in Italy, LAVOR has grown into a global leader offering a wide range of machines such as high-pressure washers, scrubber dryers, vacuum cleaners, sweepers, and steam cleaning systems.

With a strong focus on innovation, durability, and ease of use, LAVOR provides solutions for industries, businesses, and households worldwide, making it one of the most trusted names in cleaning and sanitizing technology.

Vacuum Cleaners

Durable machines designed to efficiently collect both liquids and dust, ensuring clean and safe environments in industrial, commercial, and domestic spaces.

Pressure Washers

Powerful cold and hot water machines built to remove heavy dirt and grease, ideal for industrial facilities, workshops, and outdoor cleaning tasks.

Steam Cleaners

Eco-friendly solutions that use high-temperature steam to deep clean and disinfect surfaces without chemicals, perfect for hospitals, kitchens, and sensitive areas.

Carpet Cleaners

Specialized equipment for deep cleaning carpets, sofas, and upholstery, removing stains and bacteria while restoring fabric freshness.

Scrubber Dryers

Advanced machines that wash, dry, and polish floors in one step, guaranteeing spotless and shiny surfaces for malls, factories, hotels, and offices, Ride-on and walk-behind.

Sweepers

Ride-on and walk-behind sweepers designed for heavy-duty cleaning of large indoor and outdoor areas, from warehouses to public streets.

BRANDS

 **SINCE 2011**

SHAMAL is an Italian manufacturer specialized in the production of high-quality air compressors and compressed air solutions. With decades of experience in the industry, SHAMAL is recognized for its wide range of piston and screw compressors designed for industrial, professional, and automotive applications.

The company combines Italian engineering excellence with innovation, reliability, and durability, making its products a trusted choice for workshops, factories, and service centers worldwide.

Professional Line

Durable lubricated coaxial and belt-driven single-stage air compressors designed for reliable performance, long service life, and suitable for both professional and workshop use.

Heavy Duty Line

K Series belt-driven single and two-stage compressors are built for intensive professional and industrial use, known for their reliability, long service life, and global success with over 5 million units sold.

Screw Compressors

Shamal rotary screw compressors are built for continuous industrial use with high efficiency, low operating costs, easy installation, and energy savings of up to 40% with inverter technology.

Low Noise Line

Specially designed compressors with reduced noise emissions—ideal for environments where quiet operation is essential.

Pumping Units

Integrated compressor systems complete with pumping mechanisms—optimized for specific industrial applications requiring pressurized air delivery.

Air Dryers

Essential accessories such as filters, dryers, and regulators to ensure clean, dry, and safe compressed air for maximum efficiency and equipment longevity.

BRANDS

FIMER **SINCE 1998**

FIMER is an Italian manufacturer with decades of experience in producing professional welding machines and equipment. Known for its innovation and precision engineering, FIMER offers a wide range of solutions including MIG, TIG, and MMA welding machines designed for industrial, automotive, and construction applications.

With a strong reputation for reliability, durability, and high performance, FIMER welding machines are trusted by professionals worldwide to deliver consistent results in demanding environments.

FIMER

AC & DC

Hi-Fi AC (160A : 600A)
Copper-wound AC welders
and DC Welding Machines
(300A : 600A) for heavy-
duty industrial welding with
stable and reliable output.

Inverter 3*1

3-in-1 Inverter Welders
(225A – 300A) Versatile
machines supporting MIG
(with or without gas), TIG
(argon), and MMA electrode
welding in one unit.

SPOT

Fimer Spot Welding Machines
are designed to join metal
sheets by applying pressure
and electric current at a
specific point, creating strong
and precise welds.

Chargers

Battery Chargers (30A –
1400A, 3-Phase) Heavy-
duty chargers and boosters
for vehicle batteries and
engine starting support.

FIMER

INVERTER

Inverter Welding Machines (110A : 400A, DC) Compact and efficient inverters for welding all types of metals with stable DC output.

PLASMA

Plasma Cutting Machines Air and electricity-powered plasma cutters for efficient cutting of various metals with accuracy.

TIG

TIG Welding Machines (150A : 400A) Argon (TIG) welders for precise, high-quality welding on stainless steel, aluminum, and non-ferrous metals.

MIG

MIG Welding Machines (120A : 650A) Semi-automatic operating with CO₂ shielding gas, ideal for automotive, fabrication, and industrial applications.

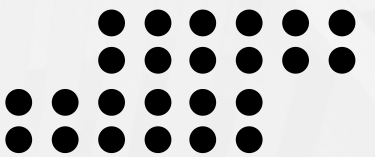

BRANDS

Stayer, the Spanish company, is one of the world's leading manufacturers of electric power tools, including drills, cutting and grinding machines, polishing tools, and woodworking equipment.

Hazet, the German company, specializes in a full range of pneumatic tools such as impact wrenches, polishing machines, drilling and grinding tools, riveting guns, and infrared temperature measuring devices, with a global reputation backed by more than 150 years of experience.

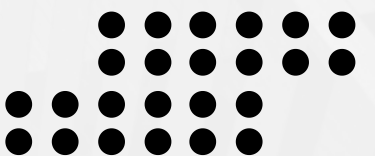

Fini and Comaria, the Italian brands, are renowned for their high-quality pneumatic equipment, including spray guns, sandblasting guns, air impact wrenches, sanders, polishing tools, nailers/staplers, and silicone guns.

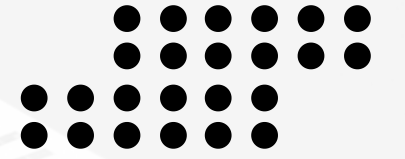

OUR SERVICES

Arabia for Services Development provides comprehensive solutions in the fields of fueling, industrial equipment, and engineering support. As the exclusive agent of PIUSI, LAVOR, FIMER, Shamal, Faicom, Fini, Comaria, and Hazet in Egypt, we supply premium European equipment ranging from fuel management systems to industrial cleaning and welding machines.

Beyond supply, we deliver end-to-end services including the design and installation of private fueling stations, professional maintenance, genuine spare parts, and technical training. Our goal is to ensure efficiency, safety, and long-term value for our clients across diverse industries.
